🐙 charanravi-online
in r-charan

Experienced Embedded Software Test Engineer skilled in manual and automated testing. Proficient in Python programming with an interest in AI, machine learning, and data analysis. Thrives in challenging environments and seeks to use technical skills to drive innovation and achieve business objectives.

WORK EXPERIENCE

LG Soft India   (October 01, 2021 - Present)
Software Test Engineer

- Spearheaded the allocation, coordination, and management of a team to successfully release webOS OSE v2.20.1, ensuring project completion within established timelines and meeting all quality standards.
- Contributed to the development of a comprehensive and clear test case for smoke testing on the Apollo project, resulting in more efficient and effective testing and overall project success.

PROJECTS

Terminal-Wiki
Wikipedia from your Terminal.

- Developed a Python-based CLI tool for searching and viewing Wikipedia articles from the terminal, utilizing the Wikipedia API for efficient article retrieval.
- Designed an intuitive UI with summary-only mode for quick reference, showcasing problem-solving skills and attention to detail.
- Collaborated with community members by accepting contributions and actively addressing issues raised in the project's issue tracker, demonstrating teamwork and communication skills.

SOFT SKILLS

Leadership

- Collaboration
- Communication

Creativity

- Critical Thinking
- Visual Thinking

Problem Solving

- Data Structures & Algorithms

Organization Skills

- Work Ethic
- Enthusiasm
- Supervision

AWARDS

Pull Shark   (May 05, 2023)

GitHub

Certified "Pull Shark" by GitHub for submitting high-quality pull requests and demonstrating strong collaboration skills within the open-source community.
